Services alternate Sunday mornings at 11.30 a.m.

Rev. W. H. IRWIN, Minister.

BELLEVEUE BAPTIST CHURCH

Pastor Evangelist: Alfred Siple

10.30 a.m., Sunday school.

11.30 a.m., Morning service.

We preach the Victory Life of Christ, and invite you.

Freddie Rees, of Hillcrest, who lost both legs during the war, now holds down a fairly important post at the Blaimore vendor store. He is sporting artificial springs and is getting along quite well.

A meeting of interest to returned men desirous of taking up land under the government rehabilitation scheme, sponsored by the Pincher Creek rehabilitation committee, will be held in the Orange hall at Pincher Creek on Friday, January 25th, at 8 p.m., Hon. Mr. Tanner, minister of lands, will be present to give information on the subject.

JOHNNY'S SISTER

Pretty Peggi Leder, teen age radio star, began her busy career at the age of twelve in a CBC fairy tale. Since then she has interpreted parts running from a goblin to a sedate young lady. One of her regular roles now is that of Johnny Home's romantic kid sister in the "Johnny Home Show", Fridays at 8:00 p.m. over the CBC Trans-Canada network.

FISH AND GAME ASSOCIATION ANNUAL MEETING

The annual meeting of the Alberta Fish and Game Association is to be held in Lethbridge on January 26th and 27th.

The UFA will be represented by J. Wheatley, of Chancellors, former representative on the advisory council. J. J. McEwen, of Nelson, BC, president of the West Kootenay Fish and Game Association, will also attend.

During the convention an executive meeting of the Western Canada and Yukon Fish and Game Council will be called to hear a progress report on activities.

TO EMPLOYERS AND TRADE UNIONS

Ottawa, Dec. 20, 1945.

In 1942 the demands of Canada's tremendous war production made it necessary to channel available manpower into essential employment. The excellent results obtained through the national selective service civilian regulations were made possible by the unselfish co-operation of employer and employee, of trade unions and associations of employers, in spite of some inconvenience in individual cases.

Immediately after V-E Day and V-J Day, and with each change in the manpower situation since, we have amended the regulations to meet existing conditions; and we have now reached a point where further amendments are possible.

The regulations remaining in effect may be summarized under four heads:

1. Employers are required to notify the national employment offices of all vacancies in their establishments;

2. Employers are required to report all additions to their staffs to the national employment office;

3. Unemployed workers seeking employment are required to register with the national employment office;

4. A person, terminating employment, either employer or employee, is required to give seven days' notice of separation in prescribed form, a copy of which must be sent to the national employment office.

The most important feature of these amendments is the abandonment of the permit system and the substitution of a reporting system. It is also worth noting that advertising by either employer or employee is unrestricted.

These remaining requirements are the very minimum necessary to give local employment offices the reasonably complete picture of manpower supply and demand essential to the efficient operation of a service designed to assist both employer and employee.

As in the past we were dependent on your co-operation to achieve wartime objectives, so in the future we rely on the co-operation of employers and employees in order to give you the efficient service you are entitled to expect.

Yours sincerely,
A. MacNamara,
Deputy Minister of Labor.

It is the good fortune of Macleod to have a new industry established in town, which will provide employment for a steadily increasing number of local workers, thereby adding to the general revenue of the town and increased business for all departments of trade.—Macleod Gazette.

The confidence with which Iraq is planning for the future is shown by recent announcements of important new development works, in which she is receiving the full co-operation of United Kingdom manufacturers. It is now reported that work on the Habbaniyah escape scheme on the River Euphrates is to be resumed immediately and completed within four years. The scheme is intended to provide a regulated draw-off on the dangerous excess of Euphrates flood waters.

MARGUERITE WILLIAMS PASSES IN EDMONTON

This community was shocked during the week to learn that Miss Marguerite Williams, well known music teacher and former resident of Blaimore and Bellevue, had passed away in Edmonton. She had been ill for several months, and had quite recently been treated at Mayo Bros' clinic at Rochester, Minn.

Miss Williams was born in Franklin, Wash. In 1905 she came to Blaimore with her parents, the late Mr. and Mrs. W. P. Williams. A graduate of St. Hilda's School for Girls, she took up music teaching.

She is survived by five sisters, Beatrice L. in Edmonton, Catherine in Calgary, Mrs. Alex. H. Granger in Blaimore, Mrs. Arthur Holmes in Vancouver and Mrs. Ernest Lea in Victoria; and four brothers, Arthur and John in Calgary, Thomas in Moose Jaw and Capt. Williams in Vancouver.

The remains will be laid to rest in Burnside cemetery, Calgary, this afternoon.

ARCHDEACON DEWDNEY PASSES AT VICTORIA

Archdeacon Arthur J. B. Dewdney, for many years an active leader in the Anglican diocese of Calgary, passed away at his home in Victoria, BC, on Saturday last.

Born at Broadstairs, England, he was a master of arts of Jesus College, Oxford, and was ordained in the diocese of London, where he served as a beneficed clergyman before coming to Canada in 1901, when he came at his own expense and carried on the work in this diocese without remuneration. He is survived by his wife in Victoria and a daughter in England.

Senator Duncan Marshall passed away in a Toronto hospital on Wednesday night at the age of 73. He was former minister of agriculture in Alberta.

C.P.R. CHANGES

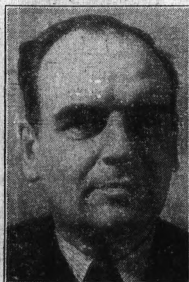

GEO. H. BAILLIE

W. S. HALL

J. G. JONES

TREVOR WOOD

Promotion of William Manson, general manager of western lines, to Vice-president of Personnel, Montreal, brought a number of interesting changes in the Canadian Pacific Railway's official personnel. George H. Baillie was promoted from general superintendent at Vancouver to succeed Mr. Manson as general manager of western lines, Winnipeg. Mr. Baillie was general superintendent at Calgary until May, 1944, when he went to Vancouver and earlier had been assistant superintendent at Wynyard and Lethbridge, and superintendent at Vancouver and Revelstoke. W. S. Hall, who has been general superintendent at Calgary since May, 1944, has been promoted to assistant general manager at Calgary, succeeding Mr. Hall. Mr. Jones was formerly superintendent at Edmonton, and earlier assistant superintendent at Prince Albert, and has been superintendent at Moose Jaw since last April. Trevor Wood has been assistant superintendent at Moose Jaw since 1941 and has now succeeded Mr. Jones as superintendent on that division.

TO EMPLOYERS OF CANADA

Ottawa, Dec. 20, 1945.

For the first time in over three years there is sufficient labor available to meet all reasonable demands. It is not anticipated that this situation will continue for long, as increased industrial and construction programmes will be operating in the spring.

The present situation offers an opportunity to employers. Those who have been in lower labor priorities throughout the war can now obtain additional help. Those who can immediately expand their working force can now obtain adequate help. Present work schedules should be expanded to include an additional shift where this is warranted. The labor is available now and may not be there later on.

A large number of veterans have been demobilized and more are leaving the services daily. These men and women are the finest available material from which to build up your staff for the post-war period. They are looking for opportunities to re-establish themselves in civil life. Your opportunity to obtain their services is immediate and delay will probably mean that once established they will not want to change.

The National Employment Service of the Department of Labor is the clearing house where job opportunities and available labor meet. You are urged to immediately list your requirements for the next three or four months with the nearest local office, where every effort will be made to refer to you applicants with the skill which you require.

We ask that you take advantage of this opportunity not solely in your own interest but also to assist in keeping the employment in Canada at the highest possible level.

Yours sincerely,

Humphrey Mitchell,
Minister of Labor.

JOHN RICHARDS LAID TO REST

Funeral service for the late John Charles Richards was held at the Anglican church, Coleman, on Sunday afternoon last and was largely attended, including members of the B.E.S.L.

Born at Tonypre, Wales, he grew into young manhood in that town, and following his school days entered the mine. In 1907 he was married to Miss Elizabeth Butler. In 1910 they came direct to Coleman, where he resided till his death. His family, Mrs. Richards; daughter Olive (now Mrs. Howard Davies, of Calgary) and son, L. S. "Sonny" Richards, survive him, also his mother, who is 86.

He was for many years an employee at the International mine till last September when he entered a Calgary hospital and remained there till the end came. The remains were laid to rest in the family plot of the Union cemetery.

COWLEY HAPPENINGS

Mrs. Michael Elton was taken to Calgary on Wednesday, where she is now patient in hospital.

A card party, sponsored by the local Red Cross branch, was held in the Masonic hall on Wednesday evening, court whist being in order. Prizes were won by Mrs. M. A. Murphy, ladies' first; Mrs. Robert Littleton, consolation; David Murphy, gent's first; Bill Robinson, consolation. The evening's gaiety was concluded with a lively dance, Alvin Murphy and Kenneth Martin supplying the music.

Mr. and Mrs. Charles McKerral have recently purchased a house up Bridge Creek in the west of Pincher Creek, formerly owned by the late Mr. Stucky. Mr. and Mrs. McKerral have lived on a North Fork ranch for a number of years, but will retire to take up residence in their newly acquired home.

Recent word was received saying that Corp. Otto Wende, who has been with the forces overseas for a few years, was married to an Irish girl on December 28th. He hopes to bring his bride home to Canada some time this year.

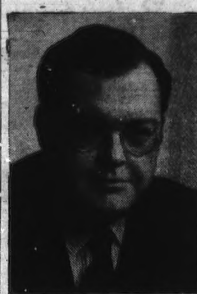

Among those of serving forces overseas to arrive recently at New York on the Queen Elizabeth was Pte. Kathleen M. Elton, C.W.A.C., who was granted a ten-day leave in Boston. On her arrival in Calgary she will be met by her parents, Mr. and Mrs. Cecil Elton. She has spent three years in the overseas service.

Following a visit with her daughter and son-in-law, Mr. and Mrs. F. Iwasaki, Mrs. John Fournier returned to her home in Calgary.

The annual meeting of the Ladies A'd of the United church was held at the home of Mrs. Kenneth Martin on Thursday afternoon of last week, with ten members present. The following officers were re-elected for the ensuing year: Mrs. Martin, president; Mrs. I. Irwin, vice-president; Mrs. Arthur Tustan, secretary-treasurer; Mrs. Helen Swart to flower committee; Mrs. R. J. Day to social committee and Mrs. Murphy to publicity.

Genner Euclid Landry, who has served with the forces for three years overseas, returned this week. Although Euclid saw some pretty hard service and was in hospital a considerable time recovering from leg wounds, he is looking fit as a fiddle and says he wouldn't have missed the big show for anything. Unlike a lot of other returned boys, he says that he still is a single man, but he led us to believe that he will bring a bride out from England when he gets nicely settled down. And we say "Hurrah! That's the stuff!"

On Saturday afternoon last Mrs. William Cochrane was hostess when she lent her home for the annual meeting of the local Red Cross, when fourteen members attended. For the ensuing year officers were elected as follows: Mrs. T. E. Murphy, president, network.

—Photo by Kersh

TO REVIVE TRADE: In preparation for the re-establishment of normal trade between Canada and the United Kingdom and Europe, John C. Patterson has been named European general manager for the Canadian Pacific Railway Company at London, Eng. Mr. Patterson has been in London for the past nine years, with his services loaned to the British Government for four of those years on war work. He returned to his London office in September, 1944, from Ottawa, where he was Canadian representative for the British Ministry of Supply.

(succeeding Mrs. M. Elton); Mrs. Willard Dwyer, first vice-president; Mrs. Arthur Tustan, second vice-president; Mrs. Frank Webber, secretary; H. C. Morrison, treasurer. Social committee: Mrs. W. Cochrane, Mrs. Robt. Littleton, the former filling the vacancy left by the resignation of Mrs. E. F. Everitt. Mrs. M. A. Murphy, publicity.

A DOCTOR'S PRAYER

"O Lord, give me knowledge and the art of expression, for the conveyance of the same to others; give me a laudable urge for the acquisition of new truths and give me a skill and dexterity in their application as I approach the sick, and free my soul from unjust discrimination; give me strength and the will to carry on against all odds, and most of all, give me humility."—From Canadian Doctor.

Norman Baillie-Stewart, a former 36-year-old British army officer, has been sentenced to five years in prison for helping Germany by broadcasting Nazi propaganda and serving German foreign service.

For the first time in peace years since it was built, the British public cannot now walk over a small bridge in St. James' Park, from which Prime Minister Neville Chamberlain used to feed ducks in the ill-starred days that followed Munich. The reason is an unexploded bomb, one of twenty-three known to be still scattered in the neighborhood.

ON CBC NEWS ROUNDUP

Genial Byng Whittaker is the announcer-co-ordinator of the CBC News Roundup presented daily over the CBC Trans-Canada network Mondays to Friday at 9.15 p.m. Byng, who recently returned from his overseas war time assignment on the BBC North American service, also takes part in Evening Scrapbook, a variety show for young listeners on Thursdays at 6 p.m. over the CBC Trans-Canada network.

An Experiment in Collaboration

DISSOLUTION OF THE Combined Production and Resources Board and of the Combined Raw Materials Board at the beginning of the New Year has drawn attention to the important service rendered by these and other combined boards during the critical war years. It is expected that the Combined Food Board which was associated with the other two boards in the stupendous and complicated task of distributing materials and supplies for the Allied armies, and also to the civilian population of the United Nations will be dissolved before the end of 1946. Formed early in the war, these organizations had their headquarters in the United States, and they represented a co-operative effort among nations which should point the way to further efforts of this kind in the new peacetime economy of the world.

Food Crises Were Averted

At the time the dissolution of the Combined Production and Resources Board was announced, they were described as "a novel experiment in economic collaboration, which unquestionably hastened the moment of victory." Their contribution towards the Allied victory included the working out of an equitable system of distribution for materials and supplies prior to the great offensives in North Africa and in Germany. They also made a notable contribution in straightening out differences in specifications and other details which seriously delayed production in the early days of the war. In addition to arranging for military supplies, these combined boards averted many serious food crises in Allied countries by working out a system through which food was allocated among the nations according to need and availability.

Has Applications For Peacetime

Some specialized committees of the combined boards are to continue to function through the reconstruction period, arranging for the orderly distribution of supplies until the balance between production and demand has been restored to normal proportions. Although the work of the combined boards as a wartime organization is now almost at an end, they have shown the very practical value of such international co-operation and a continuation of their work is seen in the structure of such peacetime organizations as the United Nations Relief and Rehabilitation Administration, of the Food and Agriculture Organization, and of those bodies which are being set up to foster international co-operation in matters such as aviation and trade. It is encouraging to see that in this, as in many other fields valuable lessons learned during the stress of war, are to be used to improve conditions in time of peace.

How to Combat RHEUMATIC PAIN

Rheumatic pains may often be caused by excess uric acid, a blood impurity which should be extracted by the kidneys. If kidneys fail, excess uric acid remains, it may cause severe rheumatoid and pain. Treat rheumatic pain by keeping your kidneys in good condition. Get and use Dr. Dade's Kidney Pills. Dr. Dade's helps your kidneys get rid of trouble-making poisons and excess acids—help you feel better. See what Dr. Dade's can do for you. 137

Noted Sculler

John Cotford, Old Resident Of
Victoria, Has Died

John Cotford, 88, noted sculler in his youth and one of the last remaining links with the days of the crown colony of Vancouver Island, died recently at Victoria.

Mr. Cotford was born in Victoria Sept. 30, 1857, two years after the first school had been established on the island and in the days when this city was a settlement of only about 500, nearly all of whom were employees of the Hudson's Bay Company.

He retired 30 years ago after many years as a hunter on sealing schooners sailing out of Victoria. He is survived by his sister, Mrs. Harriet McKay, mother of Mrs. John Hart, wife of the premier of B.C.

MAKING CANNED MEATS

During the fiscal year 1944-45, a total of 36 establishments in Canada operated under the Meat and Canned Foods Act and the Regulations governing the inspection of meat. These establishments were distributed by provinces as follows: Ontario, 28; Quebec, 25; Manitoba, 10; British Columbia, 9; Prince Edward Island and Alberta, 3 each; Saskatchewan, 5; and two in New Brunswick. Supervision was carried out by the Meat and Canned Food Section of the Health of Animals Division, Dominion Department of Agriculture.

AGREES IN RUSSIAN

James F. Byrnes, United States Secretary of State, made the Russian expression for "I agree" and used it frequently at the foreign ministers' conference in Moscow, much to the delight of his colleagues.

PATENTS

AN OFFER TO EVERY INVENTOR. List of inventions and full information sent free. THE PATENT ADVISORY Registered Patent Attorneys, 275 Bank Street, Ottawa, Canada.

Price Control And Rationing Information

Q.—Why is it so difficult to find good black pepper in stores?
A.—Last year it was necessary to limit the pure black pepper content because of an extreme shortage. In 1945, the Wartime Prices and Trade Board recently announced an increase in the pure black pepper content of imitation black pepper from 35% to 40%, and a better grade black pepper will soon be appearing on the grocery shelves.

Q.—Do the preserves coupons expire on January 31?
A.—Orange colored preserves coupons 35 to 37, P coupons 32 to 33, and all unnumbered preserves coupons issued for special purposes expire on January 31.

Q.—I lost my ration book. What shall I do in order to get another book?
A.—There's a waiting period of 30 days, during which time arrangements are made to issue a temporary ration card. If, at the end of the waiting period the original book hasn't turned up, the local ration board will issue a new book. It is necessary, however, to make a sworn statement or an affidavit before a notary public to obtain a new book.

Q.—Will my baby's ration book have all the coupons in it when it is received from the local ration board?
A.—The ration book you will receive for your baby will only contain those coupons which become due from the time the application is made, so it is to your advantage to get the baby's book as soon as possible.

Please send your questions or your request for the pamphlet, "Consumers' News" or the Blue Book in which you keep track of your ceiling prices, mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

Northern Fish

To Investigate The Commercial Possibilities Of Great Slave Lake

Scientific investigation of commercial fishing possibilities of Great Slave Lake are to be extended this year, the federal fisheries research board announced.

Last year's fishing operations at Great Slave Lake, the first undertaken on a commercial scale in the North West Territories, yielded a catch of about 1,500,000 pounds. Investigations made by the board in 1944 indicated the lake could yield an annual production of about twice that size.

Dr. D. S. Rawson, of the University of Saskatchewan, who has directed previous research at Great Slave for the board, will be in charge of the 1946 investigations.

Rather Chilly News

Specialist Says Sun Spots Are To
Bring Colder Weather

Dr. R. E. Delury, Canada's No. 1 solar specialist, gave the sun spot situation a quick once-over and came up with some chilling news.

Solar physicist at the Dominion Observatory in Ottawa, Dr. Delury said his charts indicate this weather for the future:

1. The remainder of this winter will be colder, with more snow than last winter, and each winter from now until 1948 or '49 will grow progressively more severe.

2. Next summer will be cooler and wetter than last summer and each summer through to 1948 or '49 will produce a little less heat and a little more rain.

For that sad state of affairs said Dr. Delury, blame the sun spots, those gigantic solar eruptions which wax and wane in 11-year cycles and right now are approaching the peak of one of those periods.

For the Canadian coasts it will be cold weather, with rain, and the prairies could weather with progressively increasing rainfall, and the same for Ontario and Quebec.

Plan Health Village

Authorities Of Hospital In Leeds,
England, Have Good Idea

The authorities of the Leeds General Infirmary have evolved a scheme for dealing with the problem of hospital patients who require lengthy treatment and thus hamper the hospital in accepting new patients.

Under the existing hospital near Leeds which would provide accommodation for five hundred beds they suggest building a "health village" where three hundred and fifty more patients needing institutional treatment but not confined to wards could be accommodated.

There would be a gymnasium and cinema, and workshop facilities could be provided in a neighboring ordnance factory.

There would also be a school for children which children from outside with physical disabilities preventing them from attending ordinary schools might also attend.

IN PROPER ORDER

"This is Inkpen. Inkpen, Page and Inkpen, 2010-10-10."

"Can I speak to Mr. Inkpen?"

"I'm sorry, Mr. Inkpen is in Germany."

"Then can I speak to Mr. Inkpen?"

"Sorry, Mr. Inkpen is in Burma."

"I'd like to speak to Mr. Page."

"Mr. Page has gone to America."

"Well, can I speak to Mr. Inkpen?"

"Mr. Inkpen speaking."

Gets Right After MISERIES OF Infectious Colds!

Best-Known Home Remedy
You Can Use Has Special
Penetrating-Stimulating
Action That Works Just Fine

Penetrates deep into bronchial tubes to speed medicinal power

Home-proved, VapoRub's special penetrating-stimulating action starts to work mighty fast—and keeps on working for hours—to relieve such miseries of colds as coughing spasms, bronchial congestion, muscular tightness. When you rub VapoRub on throat, chest and back and see the results—you'll know why it is a family standby in so many millions of homes.

Grand for children and grownups. Try it.

VICK'S VAPORUB

South Africa's Problem

Queues Form For Hours To Get
Ration Of Butter

Butter is so scarce in Durban that queues form at midnight, last until 10 or 11 o'clock in the morning and even then the majority go away empty-handed.

The butter scarcity is one of several food problems affecting South Africa, which is suffering from the most serious meat shortage in years.

The meat scarcity is attributed by officials to drought, increased consumption and large-scale outbreaks of cattle diseases.

Government authorities have made an attempt to have more than a week's supply of butter or enough sugar, condensed milk, tea and rice for a month. Rice also is scarce.

In Johannesburg hotel proprietors are finding it difficult to provide enough food for their resident guests. Butter is not available in most cases except for breakfast.

SMILE AWHILE

Fisherman: You've been watching me for three hours. Why don't you try fishing yourself?

Onlooker: I ain't got the patience.

First Devil: Ha, ha! No, no! Satan: Why do you laugh?

First Devil: I just put a woman into a room with a thousand hats and no mirror.

The problem was: If a man buys an article for \$12.25 and sells it for \$9.75 does he gain or lose by the transaction?

The beautiful but dumb young thing pondered deeply. She wrinkled her brow. Then she brought forth this answer: "I'd gain on the cents, but lose on the dollars."

Johnny (buying ticket in railroad station): I want a ticket to New York.

Clerk: "Would you like to go by Buffalo?"

Johnny: "I don't know. I've never ridden one."

"Did it cure your husband of walking in his sleep when you put the tub of water by the side of his bed?"

"Yes, and it cured me of putting a tub of water by the side of his bed."

Man (employed by an Aberdeen): "I have been here 10 years, sir, doing three men's work for one man's money, and now I want a raise."

Employer: "I cannot give you that, but if you'll tell me the other two men, I'll sack 'em."

The man in the restaurant was having trouble cutting his steak. Finally he called the waiter: "I can't cut this steak. Take it back and bring me another."

"Sorry, sir," replied the waiter, after closely inspecting the meat, "can't take it back; you bent it."

Said a mother to her small son: "Those little orphans have no father and mother and no Aunt Sarah. Would you like to give them something?"

"Yes, What about giving them Aunt Sarah?"

The children had been sent to feed the poultry. "Oh, look, Peter!" said the little girl. Some have rings for their legs. I suppose they're the married ones."

Annie Officer: "Didn't you see me coming up the line?"

"The Officer: "Yes, sir."

Annie Officer: "Then why didn't you challenge me?"

"The Officer: "Challenge you? Why, hang it, I've known you since you was a kid!"

Huge trees in Brazilian forests are felled by beetles, which dig a tunnel around the trunk, going deeper and deeper until the tree falls. These insects destroy much valuable timber each year.

Answer To Last Week's Puzzle

TALKING STAMBLING.—The Vernon Henry family in Bowmanville, Ont., have a stalling called "Birdie" which is believed to be the only talking one in the world. As soon as "Birdie" gets his bath in the morning, he takes over the conversation for the day, and keeps at it steadily.

How It Worked

The "Do it Now" Sign Brought Quick Results

Hoping to inspire his workers with promptness and energy, a Canadian business man hung a number of signs reading "DO IT NOW" around his factory and office.

When he was asked some weeks later how his staff had reacted, he shook his head sadly.

"I don't even like to talk about it," he said. "The head bookkeeper says with the best speed I ever had; three typists asked for an increase; the factory hands decided to go on strike, and the office boys joined the navy."

GEMS OF THOUGHT

DUTY

Duty is carrying on promptly and faithfully the affairs now before you. It is to fulfill the claims of today.—Goethe.

Consciousness of right-doing brings its own reward; but not amid the smoke of battle, is merit seen and appreciated by lookers-on.—Mary Baker Eddy.

The duty of man is plain and simple, and consists but of two points; his duty to God, which every man must feel; and his duty to his neighbor, to do as he would be done by.—Thomas Paine.

The path of duty lies in what is near, and men seek for it in what is remote.—The work of duty lies in what is easy, and men seek for it in what is difficult.—Amenius.

The truth is, one's vocation is never more far-off possibility.—It is always the simple round of duties which the passing hour brings.—J. W. Duller.

There is no mean work, save that which is sordidly selfish; no irreligious work, save that which is morally wrong; in every sphere of life the post of honor is the post

The King Gives A Message To U.N.O. Delegates

LONDON.—The King told representatives of 90 per cent of the world's peoples that in their hands lies the power "to make or mar the happiness of millions of your fellow-men and of millions yet unborn."

"The rights of nations and individuals cannot exist and stand secure unless nations and individuals alike are members of an ordered society," the King declared. "Such rights can only be fully enjoyed when they are recognized as part of a common interest in which we all share."

The King delivered his message to leading diplomats and statesmen of the world at a Royal banquet in St. James' Palace which was a preliminary to the opening of the first session of the United Nations general assembly.

Touching on one of the major problems facing the U.N.O.—atomic energy—the King told delegates that they had been given the machinery that would enable them "to harness to the service of mankind those new sources of energy which the genius of man has discovered."

"It is for you to lay the foundation of a new world, where such a conflict as that which lately brought our world to the verge of annihilation must never be repeated," the King said.

But he warned that the "prizes now offered to mankind will not be won without effort and sacrifice."

"Clearly, the outstanding feature of membership of the United Nations is service—not a selfish defence of mere national interest but service to the whole community of nations. Here is the prime motive power which must inspire all its actions and enable the approach to every difficulty to be made in the spirit of co-operation, understanding and goodwill."

At another point he emphasized that all the tasks confronting the United Nations in their crusade for world peace cannot be accomplished at once.

"Nor," he added, "will they be accomplished at all unless we exercise comprehension, patience and tolerance one with another. I pray that these qualities may be granted to us. For tonight we stand—and stand together—on the threshold of immense possibilities."

TO BE DECIDED

Supreme Court Will Submit Ruling On Deportation Of Japanese.

OTTAWA.—The validity of orders-in-council providing for the deportation of Japanese in Canada will be tested before the supreme court of Canada at a hearing Jan. 24, it was learned here.

An order-in-council referring the orders to the court for a test was passed by the cabinet after it reviewed a request from a Toronto committee for such action.

The case will be the first to be heard in the new Supreme court house, built prior to the war, but not occupied by the court until recently. The deportation orders in question were tabled in the commons Dec. 17 by Prime Minister MacKenzie King.

WILL CARRY TROOPS

The Queen, Elizabeth Will Continue To Bring Canadians Home.

LONDON.—According to the present allocation of shipping, the 85,000-ton Cunard liner Queen Elizabeth will continue to carry Canadian troops until further notice, Canadian military headquarters in London announced.

The statement was issued after the London Evening Standard printed a story stating that the Elizabeth was about to make her last voyage as a Canadian troop ship.

FREAK ACCIDENT

EDMUNDSTON, N.B.—Leo Char-est, 40, died after a freak accident while he was putting air into a tire of his truck. The locking rim came off, the tire blew out, he was knocked to the floor and the tire landed on his head. A similar accident at the same scene caused the death of Herve Couturier nearly a year ago.

VETERANS FIRST

TORONTO.—Veterans who were essential users of automobiles or trucks prior to enlistment are entitled to top priority rating in buying new vehicles, the veterans affairs department announced. Double amputation cases also are entitled to top priority with certain qualifications.

MAV BEATPEAR

SYDNEY, Australia.—A group of southwest Pacific islands, missing for about 130 years, may reappear following the violent earthquake in the Antarctic circle on Dec. 29, according to the Riverview observatory in New South Wales predicted. The islands were discovered and charted in 1814 but disappeared a few years later.

CANCER PROBLEM

Seeking New Information On Disease From Atomic Research.

NEW YORK.—The American Cancer Society announced it is seeking new information on the disease from wartime atomic research.

The studies which produced the bomb, the society's statement said, might provide an answer to the question:

"Can we find a way to treat cancer internally by making radioactive certain substances on which cell growth depends?"

"Between Pearl Harbor and V-J day, cancer killed more than twice as many Americans than did the Germans and Japs," said Dr. Frank E. Adams, president of the society.

"Unless we do something about it, 17,000,000 Americans now living will die of cancer. It is exceeded only by heart disease as a cause of death. Because it frequently means not only death but long and cruel suffering, it is the disease dreaded most. As such it ranks as our No. 1 enemy."

The society said it was made available to cancer research workers, insofar as military security permits. This applies particularly to the wartime atomic and chemical warfare research.

The society said the national research council had recruited 90 leading scientists in fields related to the cancer problem to plan "a nationwide co-ordinated program for support of research against cancer."

To Safeguard Basic Secret Of Atomic Energy

LONDON.—Great Britain and the United States appeared to be in agreement that the basic secret of atomic energy must be safeguarded under proposed plans for the United Nations general assembly to control the atom bomb.

James F. Byrnes, United States secretary of state, said he believed the issue of safeguarding the basic secrets of atomic energy would be settled satisfactorily.

Ernest Bevin, British foreign secretary, said at a press conference "a defence against the atomic bomb is the nucleus of the United Nations Organization."

There was some American concern that the secret safeguards were jeopardized by sending of a resolution submitted to the United Nations, recommending establishment of a commission to deal with atomic energy.

Exception was taken to a recommendation that the commission "shall proceed with the utmost dispatch and inquire into all phases of the problem."

However, Mr. Byrnes said the plan specifies all stages dealing with the problem will be concurrent with security.

The British view is understood to be the same.

Mr. Byrnes said that "whenever people have the same objective they never have trouble finding language to reach the objective."

He expected to have an early talk with Senator Arthur Vandenberg of Michigan, one of two Republican members of the delegation who did not attend the delegation's first press conference.

BUTTER OUTPUT

Declined Sharply In December Over A Year Ago.

OTTAWA.—Canadian butter, declined sharply in December to 10,566,000 pounds, compared with 12,361,000 in December, 1944, the Dominion bureau of statistics said.

The decline, slightly more pronounced than that for November, apparently was anticipated as prices board officials announced in December the weekly butter ration of seven ounces would be reduced to six ounces beginning last week.

Concentrated milk production in December, including whole milk products and milk by-products, amounted to 11,800,000 pounds, 24 per cent less than in December, 1944.

STUTTERING SCHOOL

Vancouver Service Is Curing Hundreds Of Students.

VANCOUVER.—Vancouver school board service that is releasing hundreds of school children from the handicap of stuttering yearly will be extended during 1946, it was announced.

The service was introduced in Vancouver in 1939 and last year 500 out 1,200 child stammerers were pronounced cured.

Boys suffer more often than girls from defective speech, which is a psychological handicap, said Mrs. Elfreda Webb, in charge of the course.

Population of the earth in 7000 B.C. is estimated at 7,000,000, approximately that of New York City today.

PRETTIEST ON LONDON BUSS

—Cynthia Churchill has been chosen London's most beautiful "dimple" but conductress—in a contest sponsored by the London passenger transport board.

DO NOT WANT MONEY

ATHENS.—Greek workers, instead of demanding wage readjustments, are insisting on being paid in food-stuffs, or other articles. Lack of public confidence in the drachma is shown by the daily increase in the value of the gold sovereign (\$4.47) now quoted at 175,000 drachmas.

TO COME TO CANADA SOON.—Sir Harold Alexander, governor-general designate of Canada, is seen in an informal pose with his dog Tessa at his home in Windsor, England. He will visit Canada in the spring.

CANADA'S NEW CARDINAL.—His Eminence James Charles Cardinal McGuigan is seen at his desk with some of the more than 2,000 messages of congratulation which have come to him since announcement of his appointment by Pope Pius XII as a prince of the Roman Catholic church. A native of Prince Edward Island, he has been archbishop of Toronto since 1935 and before that was archbishop of Regina, Sask. He plans to go to Rome in February, with Canada's French-speaking cardinal, Rodrigue Villeneuve of Quebec, and will receive his cardinal's hat from the pope at that time.

PRaise for Canada

London Paper Pays Tribute To Wartime Support Given Britain

LONDON.—The London Evening Standard paid editorial tribute to Canada's wartime support of the United Kingdom in food and hard cash.

The newspaper, owned by Canadian-born Lord Beaverbrook, former Conservative cabinet minister and an advocate of preferential tariffs with the empire, said that Canada's assistance deserved wider recognition "in face of the threat which the Bretton Woods agreements holds against empire economic unity."

The editorial was entitled "Our Good Friend," and said that Canada still was feeding Britain at a discount, exporting last year alone \$741,300,000 worth of agricultural produce, mainly wheat and flour. The wheat price was \$1.55 per bushel, while buyers outside the empire paid \$1.80.

In the same year, the editorial said, Britain got meat, dairy and sea produce worth \$277,100,000 at prices which, for certain produce, were lower than those obtainable in the United States.

Furthermore, Canada had made treasury gifts of \$1,800,000,000 interest-free loan for the duration of the war sterling balances totalling \$700,000,000.

HIGH QUALITY BARLEY

Maintenance Of Purity Of Seed Is Stressed

SASKATOON.—Maintenance of the purity and Elite seed and the need for producing high quality barley were stressed by speakers at the annual convention of the Saskatchewan branch of the Canadian Seed Growers' Association.

There was greater need today than ever before for producing high quality barley and western farmers will need to improve the standard of their barley products if they wish to retain markets they now hold, Prof. T. J. Harrison, assistant commissioner of the board of grain commissioners and chairman of the national barley committee, told the delegates.

Prof. Harrison, who is also a past president of the Canadian Seed Growers' Association, discussed the marketing of western Canadian barley and revealed that, had Canadian barley been available, a profitable market was open in the United States. Actually, he said, commitments had been made but these had been cancelled.

Prof. Harrison touched upon the question of price ceiling for barley, showing how low grade barley today fetched greater financial returns than good quality grain, but this was a temporary condition and would be remedied. Maturing barley, he said, would eventually regain its full place and outsell the common feeding varieties.

Canadian barley was used by three distinct industries for milling, malting and feeding. The milling, or pearl barley, industry uses about 300,000 bushels annually and the price of this type was below that paid for the malts. The speaker recommended Hanchen and Charlottetown 80 for milling barley, some of which was usually exported to Britain.

Maintenance of the purity of Elite seed was the biggest problem confronting seed growers, Dr. J. E. Harrington, professor of Field Husbandry at the University of Saskatchewan, told the members.

Set Up Mission In Berlin To Protect Our Interests

BERLIN.—A Canadian military mission now is established here with the aim of protecting Canadian interests in Germany apart from the Canadian army occupation force.

It-Gen. Maurice Pope, head of the mission, is expected here in a week after he finishes with the Paris reparations commission where he attended as the Canadian representative.

The Canadian mission's headquarters, in two houses in the Charlottenburg district, now are manned by two staff officers, Col. John McQueen of Medicine Hat, Alta., former head of the Canadian military staff in Paris, and Capt. A. W. Claborn of Victoria.

The mission, to function something like an embassy, is the only Canadian unit in Berlin. Other ranks of the staff include company sergeant major John Warren of Ormiston, Sask., who fought with the South Saskatchewan Regiment at Caen, Normandy, and who is known to thousands of Canadian soldiers as the company sergeant major for other ranks at the leave centre in the Palais D'Orsay hotel, Paris; and Lt.-Col. Roy Litz of Regina.

Due to the accommodation shortage in Berlin, the mission has been restricted to 10 day ranks for the winter but in the spring it is expected it will be expanded to the 43 originally planned.

When Gen. Pope arrives he will be accompanied by his personal assistant, Lieut. Louise Dawson of Swift Current, Sask.

PRODUCTION DOWN

Fewer Hogs Raised Making Bacon Quota To Britain Impossible.

OTTAWA.—Government sources concerned with food said in comment on a statement by Prof. A. H. Ewan of the University of Saskatchewan that Canada has shipped all the bacon possible to Britain and has indicated many times she would be unable to fulfill the contract because of a decline in hog production. (Prof. Ewan said in an address to Saskatchewan Agricultural college graduates that "Canada let an opportunity go last year when it failed to ship to Britain its 450,000,000 pound quota. Danish produce is already being sold there.")

The government officials added that the Dominion could not ship that it did not have and noted that Canadian consumers had gone without bacon or had eaten only the rougher cuts in an effort to get every available ounce overseas.

POPULATION OF B.C.

VANCOUVER.—Population of British Columbia, as shown by ration-books issued, has soared to its all-time peak of 930,387—a gain of 63,841 in the last year, it was reported by the prices board.

Brazil Trade May Ease The Sugar Situation

OTTAWA.—A detailed study of Brazilian-Canadian trade possibilities, with a prospect of more sugar for Canada, has been completed by the Brazilian trade bureau here and is now being transmitted to the Brazilian government.

It is the work of J. C. Ribeiro Campos, who for the past year has been chief of the Brazilian trade bureau here. Having completed the survey, Campos now is en route to Brazil to lay the document before his government.

It is credited with being the most elaborate blueprint yet prepared for the development of two-way trade between the two countries.

One of the chief features, according to officials of the Brazilian trade bureau, is its proposals for large shipments of sugar to relieve the scarcity in Canada just as soon as the sugar situation in Brazil improves to the point of permitting rationing export restrictions to be lifted.

That time is expected to come within the next six or eight weeks, as Brazil now is harvesting a sugar crop placed by first estimates at the bumper figure for recent years of 18,000,000 bags—up 3,000,000 bags over last year's crop of 15,000,000 bags.

In the report which he has taken back to the Brazilian government, Trade Bureau Chief Campos is understood to have pictured an important market as available to Brazil in Canada, once shipping conditions become normal, for sugar, coffee, cotton, tea, rice, nuts, vegetable oil, wax for vegetables, cocoa, rock crystal, mica, bauxite, and semi-precious stones.

On the other hand, he is said to have recommended that Brazil should be prepared to furnish an important market to Canada for wheat, flour, iron and steel products of all kinds, including electrical appliances and heavy industrial machinery and ships.

The Campos report is declared to emphasize the importance of bringing Canadian Brazilian trade into two-way balance, and that the first nine months of 1945, Campos is said to point out, Brazilian imports from Canada—totalled \$12,000,000, as against exports of only \$2,000,000.

With the improvement of shipping facilities, however, Canadian imports from Brazil are said to be increased rapidly, and that coffee imports alone are declared to have exceeded \$1,000,000.

TRAIN IN CANADA

Possibility That British Armies May Be Trained Here

LONDON.—Possibility that British armies of the future will be trained in Canada was suggested by Major W. E. Sheppard, correspondent of the Labor Daily Herald, in a front-page article. It added, however, that no decision has yet been reached.

He wrote: "Establishment of a training area for future British armies in Canada is believed to be regarded favorably by the Dominion government."

"It would benefit financially from the scheme which is now uppermost in the official mind is the consideration of possible sites. And Canada would be glad to have British troops using such an area."

"Britain is too small to allow of mechanized and airborne forces being exercised in the far-ranging manoeuvres which form so vital a part of modern warfare and in which the army attained such proficiency during the recent war."

"Other larger areas must therefore be found."

"At one time North Africa was contemplated, but there were political dissensions."

ASSERTION DENIED

No Peace Feeler Was Conveyed To Germany By Britain

LONDON.—The foreign office announced that "no person in responsible position in this country ever took any initiative for the opening of negotiations with Germany in 1941 or at any other time during the war."

The announcement followed disclosure in Nuremberg of a document allegedly submitted to Hitler in 1941 by Dr. Alfred Hess, Hitler's intimate adviser of Rudolf Hess. The document asserted that "important English circles" conveyed a peace feeler to a representative of Hess a month before the deputy fuhrer flew to Britain in May, 1941, in a vain attempt to end the war.

DELIVERED BY PLANE

HALIFAX.—Supplies dropped successfully within 100 yards of the troop transport John M. Moorehead, 400 miles southeast of Halifax, by a plane of the eastern air command composite squadron were used immediately and a soldier stricken with peritonitis about his stomach was reported favorably to treatment.

W. J. BARTLETT, PUBLISHER

Blaimore, Alta., Fri., Jan. 15, 1940

THE YEAR ONE

A newspaperman was assigned to make a new year forecast. He laid on his desk editorials from all across the country. "People simply are not facing facts," he said.

The facts are, as Thomas Edison once put it, that "There is no expedient to which man will not resort in order to avoid the real labor of thinking." This might be restated today by saying there is no fate man will not accept in order to avoid the real pain of changing. He would literally "rather die," for instance, than have to apologize to anyone. And, in Year 1 of the Atomic Age, he literally may have to.

Every once in a while, as during the last year, conditions arise on earth which demand that its creatures change or perish. Today, with weapons in the laboratory that may make atom bombs look like a kid's fireworks, we again have these conditions. If we can't change now, in ways which will enable us to get along nicely together, the human species will become as extinct as the dinosaur or dodo.

No commission to control the bomb can save us. We ourselves must accept a commission — a commission to be different. We must determine to change in ways which, as a family man, a business man, a public official or as members of a certain race, or class, or nation, will enable us to get along with other people. Then people won't want to throw bombs at each other.

How can we start this change? We have known how for the last 2,000 years — since the beginning of the

Christian era. Christ told us that all who turned to God would find the inner freedom he desired and the inner discipline he needed. We would find the way to make life both happy and orderly. And men who find life happy and secure get along with each other, and with other races and nations.

The change that is needed for every one of us this year, therefore, is to turn from self-control to God-control. Let Him take over our minds and lives and usher in a mighty renaissance of new world thinking and living. Then Year 1 of the Atomic Era can be a year — not of fear, uncertainty and menace — but the first year of a Golden Age.

The great editor was dying. The physician leaned over him with a stethoscope, listened a few moments and rose sadly. "Poor man," he announced, "circulation almost gone."

With an effort the editor lifted his head. "You're a liar!" he proclaimed weakly. "Over four hundred thousand and gaining every day!"

Mutual distrust and the atomic bomb can't live together.

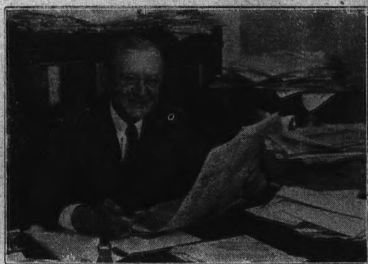

Nine hundred thousand employees of the United States meat packing plants are on strike.

A meeting of veterans is to be held at Staveland on Sunday next for the purpose of forming a branch of the Canadian Legion of the BESL.

Several British whaling expeditions are to be equipped with radar apparatus, and means are to be provided for taking bearings on whales, both on and below the water.

The sermon subject at the United church next Sunday evening will be "True Freedom." The senior choir will be in attendance. You are cordially invited to be present.

The \$1,000 Victory Bond set up by Blaimore Lions' Club for the nearest estimate of votes at the Dominion election last summer was won by J. E. Crockett, Marlborough Apartments, Calgary.

ONTARIO NEWSMAN

The CBC's programmes of Neighbourly News From the Weeklies are split up regionally, with neighborly news commentators in each region working with the provincial weekly newspaper associations concerned. In the prairie region, the neighborly news editor is R. D. Colquhoun, and his broadcast is done in co-operation with the weekly newspaper associations of Manitoba, Saskatchewan and Alberta. In Ontario, the commentator is Andy Clarke, seen above. Mr. Clarke also does a summary of neighborly news for Canadian troops abroad, which is made up of excerpts from broadcasts by other regional commentators as well as his own.

"The Quality Coffee"

**ROASTED IN THE WEST
FOR WESTERN USERS**

WORLD HAPPENINGS
BRIEFLY TOLD

Oxford university's undergraduates newspaper, "The Isis", recently made its first appearance in six years.

A silver penny minted in the reign of Offa, King of Mercia (737-796) sold by auction in London for £28 (£117).

The council of Hastings, Eng., sent along the sea-front promenade recently their first tea-trolley to serve people on the beach.

Value of Canadian construction awards in Canada increased by \$117,070,900 over 1944, statistics compiled by MacLean Building Reports Ltd. show.

Just before he died composer Jerome Kern gave his song "Windmill under the Stars" to the Canadian "Meet the News" show being filmed at Elstree, Eng.

The South African government is using DDT in Zululand in an effort to wipe out the tsetse fly, dread carrier of sleeping sickness. Areas are being sprayed from the air.

Emmanuel Shinwell, British minister of fuel, told his Durham constituents that unless new recruits to mining are obtained, the industry cannot be carried on in the future.

The London Daily Mail said that a special admiralty commission was working on revolutionary plans for a new navy for Britain, designed to cope with the threat of the atom bomb.

There are 13,000 women and children on the waiting list for passage from South Africa to the United Kingdom and more than 5,000 of these are dependents of service personnel.

The Durwell Fen village council has decided to let a 500-pound live bomb remain "to save bomb disposal men" in 25 foot below some cultivated ground.

Proof Of Ancient Life

Many Discoveries Are Recorded As A Result Of War Work

The war-cramped scientific expeditions, but excavations for airfields and bomb craters yielded new proof of ancient life through unexpected discoveries of caves, buried temples and cities, the U.S. National Geographic Society reported.

The design of an ancient Celtic wood temple, probably built between 500 and 300 B.C., was revealed by digging for airfields in England.

The extension of Gibraltar's underground defense system opened up a cave where fossils of animals, paw prints, sets of teeth and vertebrae were found.

Also in 1945 Russia reported finding ancient settlements between 25,000 and 100,000 years old, and a new island in the Laptev Sea of northern Siberia was captured. Soviet scientists dug up fossil remains of a giant whose skull measured 33 inches in circumference and whose shin bone was 33 inches long.

The University of Chicago reported finding a town built on 16 different levels 250 miles from Baghdad. The towns were built one above the other and beneath all was evidence of ancient nomadic life.

A pre-bronze age settlement was discovered near Haifa while the site of Beth-Yerah on the Sea of Galilee yielded ruins of pre-Christian periods.

An ancient city of eight large mounds was discovered by an expedition to southern Mexico. This discovery by the Seventh National Geographic Society-Smithsonian Institution expedition, indicated a migration from the Gulf coast of Olmec culture which anti-dates the Mayan civilization.

British explorers flying over North Polar regions located the north magnetic pole in the centre of the Sverdrup Islands group, 550 miles nearer the geographic pole than the Boothia Peninsula, the long accepted location.

DEPENDS ON WEATHER

After a few words, mostly spoken by the young wife, her hubby sprang to his feet.

"You've gone too far!" he exclaimed, angrily. "This is our last quarrel. I'm going right out of your life."

"Oh, Henry, darling, where are you going?" she cried.

"Where, I'll never trouble you again," he replied, as he started to open the door. "I'll find a place where wild adventure will wipe out the memories of this moment—perhaps in the jungle—or on the stormy sea—"

"As he spoke he opened the door, then closed it again and turned sternly to his wife.

"It's lucky for you it's raining," he said.

HAD MINDS MADE UP

All the evidence taken from German and Japanese secret documents proves that both countries were deliberately preparing for war and that no apprehension by the democratic countries could have altered that determination.

Life In The Arctic

Capt. Nielsen Has Sailed Northern Waters For Many Years

For 42 years grey-haired and bespectacled Captain Jens Ole Nielsen has plowed past the towering icebergs of Hudson and James Bays. In all this 42 years of skimming salt water, the 63-year-old skipper has never once ventured out into the Atlantic, as a master of an ocean-going vessel and expects to retire in four years without losing his record.

Quite content to sail the northern bays and rivers during his nearly half a century in the North, he "wore out" four ships totalling 335 tons.

At present he is visiting his wife, Clementine, and his family in Timmins on winter vacation, from his Mooseport post as master of the Hudson's Bay Company schooner Fort Severn.

Skipper Nielsen is a Dane, measure 5'10", five feet 10 inches in height, but maintains that what he lacks in height, he makes up for in width. He weighs 525 with 28-inch chest collar, and tips the scales at 247 pounds.

The skipper was only 14 years old when he took to the water as a cabin boy aboard Danish ships. When he was 19 he set sail for Canada as a crew-member of the Hudson's Bay Company ship Lady Head, which he sailed for 260 years. There, posts were established by the Hudson's Bay and Revillon trading rivals, to intercept the Indians bringing home their furs.

The skipper remembers those days during the last war, when he himself trekked for miles with his dog teams in the bitter cold to get furs before his rebarbs looming in the frozen waters.

Skipper Nielsen knows every bay and inlet in the northern waters. Along the route from Mooseport to Charlton Island and Great Whale river are countless islands where fur traders have been hunting on business for 260 years.

Nielsen says, "You never know what you'll run into next." He has been caught in ice-beds. He has been in ships when their propellers were knocked out by ice. One ship he was in had her bottom ripped out. He knows what it is to be out in thick fog with rebarbs looming in the frozen waters.

Saskatchewan Indians

To Form A Single Indian Organization

In The Province

Indians of Saskatchewan, for the first time since the signing of the Qu'Appelle Treaty in 1874 under which their forebears surrendered 75,000 square miles of land to the Crown, have agreed to unite in a Federation and press for their rights as Canadians.

They gathered in solemn conclave at the Legislative Buildings, summoned by Premier T. C. Douglas, who last summer accepted from the Assiniboines the title of Chief We-A-Ga-Sha (Red Eagle).

The 60 delegates represented the Assiniboine, Saulteaux, Cree and Sioux tribes. They came from reserves as far north as Prince Albert and from reserves near the United States border.

The conference was called by Mr. Douglas with the object of uniting all tribes and other Indian groups into a freedom of red men who could speak for all their Saskatchewan brothers, and it achieved its object when the gathering passed a resolution favoring establishment of a single Indian organization in the province.

The resolution emphasized the single organization will be formed to express and advance the view of all Saskatchewan Indians. Its members will have the right to maintain membership in existing organizations.

The new body will be known as the Indian Federation of Saskatchewan.

SHOULD BE PUNISHED

The Edmonton Journal says a man who unlawfully carries a gun is a potential murderer—with no reservations. Unless gun-toting is punished much more drastically than it has been, Canada is certain to see a sharp increase in homicide. Now is the time to make it very tough for all who are caught carrying concealed weapons unlawfully.

NEW GRAMOPHONE

An English record company announces a new recording system and a new gramophone. The combination of gramophone and records made under the new system is said to produce living music of a previously unobtainable quality and for the first time symphonies can be heard in the home with the same clarity and realism as in the concert hall.

SUN.	MON.	TUES.	WED.	THU.	FRI.	SAT.
Chicken and Dumplings	Pot Roast of Beef	Chicken Short-cakes	Meat Croquettes	Lamb Chops	Fish	Beef & Veal Loaf
1oned unrat-	Group C	left-over chicken	left-over beef	Group D	unrationed	Group C
	4 lbs. coupons			1 1/2 lbs. 4 tokens		1 1/2 lbs. 6 tokens
4 tokens for 1/2 lb. bacon. 2 tokens to carry over.						

With the festive season behind us, the time seems opportune for chicken to be the centre of eating attention for Sunday dinner. By choosing a good-sized bird you should be assured of left-overs to incorporate in a good cream sauce on Tuesday.

No More Breakages

Plastic Eyes Will Soon Replace Ordinary Glass Type

News that plastic eyes are being produced by the Optical Appliances Section of the Ministry of Penitons probably sounds the death knell of the ordinary glass eye, whose main disadvantage has always been the risk of breakage. The Ministry had absorbed much of the large peace-time stock by issuing many thousands of the old type to war casualties before developing the new plastic model.

The artificial eye business was surprisingly healthy even before the war, providing work for half a dozen leading concerns in this country. It was then reckoned that about 10,000 persons wore glass eyes, with regular additions owing to accidents in industry and the home—Manchester Guardian.

GUESSED WRONG

Anton Musser, Dutch Nazi leader, who collaborated with the Germans during the war, showed no surprise when he was sentenced to death by a Netherlands court. When he turned traitor to his country he knew he was committing high treason. He just made the guess Germany would win the war—it was a bad guess.

BROOMS GOING UP

Scarce and precious corn brooms are going to be more expensive as a result of the removal of an import subsidy on broom corn, the prices board said. Increases will be approximately 28 cents on \$1 brooms and about 42 cents for the larger \$1.50 kind.

A Misunderstanding

Gurkha Soldiers Not Fussy About Taking A Jump

Two Gurkha soldiers who had volunteered for service with India's sky troops, asked an N.C.O.:

"From what height are we supposed to jump?"

"Five hundred feet" was the reply. "Nothing doing," they said, "it's too high. Can't we try from 300 feet?"

The N.C.O. explained that from such a low height there was a danger of the parachutes not opening in time, and the Gurkhas broke into smiles.

"Oh, that's different," they said. "We get parachutes do we?"

PREVENTABLE ILLNESS COSTS APPALLING SUM

The week of February 3 has been set aside by the Health League of Canada, directly and indirectly, an observance dedicated to Canadian national, community and personal health. It is designed not only to draw attention to benefits which can be derived from good health, but also to point out that sickness, much of it preventable, today is costing Canada, directly and indirectly, an estimated billion dollars annually.

This is an appalling sum for a country which appears destined to become one of the leading nations of the world.

In promoting "Health Week" the Health League is seeking to draw the attention of all citizens to methods of disease prevention advocated by the various official health departments. The League also is seeking the cooperation of churches, schools and affiliated organizations, service clubs and other public-spirited organizations in spreading messages on health during that particular week.

An outstanding feature of the "Week" will be the third annual "National Social Hygiene Day" which falls on the Wednesday, February 6. This is an annual event sponsored by the League in co-operation with health departments.

This "day" will mark the opening of another season's intensive anti-V.D. campaign, coinciding with a similar observance in the United States. All co-operating publicity media will stress the serious problem created by the continued spread of venereal diseases.

Bungalows From Scrap

Fifty Thousand Bungalows To Be Built In Britain

Five great United Kingdom bomber factories are now, turning out the world's first prefabricated houses. This was revealed recently by Mr. Arthur Woodburn, Parliamentary Secretary of the Ministry of Aircraft Production.

Mr. Woodburn who was opening the first aluminium house erected in Blackpool, England, said: "Beating bombers into bungalows is the modern version of turning swords into ploughshares." Fifty thousand bungalows will be produced in the United Kingdom in the next year or two from a thousand tons of aluminium scrap recovered from obsolete aircraft.

B.C. Feels Superior

Supplies Holly For Thousands Of Homes In The Frozen East

B.C. coast holly has decorated the mantels in thousands of homes in the frozen east. As scores of festive dinners in snowbound homes a sprig of B.C. holly topped the plum pudding.

B.C. is famous in the east as the home of holly at Christmas and outdoor dogfodds in February.

Easterners think we live in a sort of never-never land. We should remember that, when we feel inclined to grumble about our mist and our fog, our infrequent frosty mornings.

KNOW that man?" asked a passenger, indicating a fellow traveler on the fourth deck of the Marigold.

"That's the tax inventor," replied the news butcher.

"But what's his name?"

"Dunno," said the news butcher. "Nobody seems to know. He's more or less a mystery. They say he plans to do a world-wide business. We just call him the 'T.I.'"

"And is that his dog..." that hard, white one with red eyes and pale blue eyes?" asked the passenger.

"Yes," said the news butcher, "that's his dog. Name's Masterpiece, a queer moniker. If you've heard one. The two of 'em ain't on the boat any more than three minutes before the tax inventor will say 'Now, hide, Masterpiece, hide' and the dog curls up behind a deck chair or just disappears. A smart pup."

"Well, well," remarked the passenger. "This tax inventor looks interesting. Must have a talk with him."

There's Masterpiece hiding now, said the news butcher, pointing. "He's just about to lie down behind that traveling bag on the starboard side."

Only ship in the world powered by electric cells, the Marigold ran down stream in free wheeling. The motion of the ship recharged the tired cells just as a car battery is recharged on the road.

There was no one at the wheel. The ship always fitted with the latest equipment, was travelling on a beam of light, a bent beam that allowed the ship to make the turns in the river.

The zenith is that part of the heavens directly overhead.

The passenger walked toward the tax inventor who was leaning on the rail.

"A wonderful day," he said by way of getting started.

"Not bad," returned the tax inventor solemnly. "I was just figuring how it could be taxed."

"Then you're the tax inventor?" inquired the passenger.

"Inventor and consulting engineer,"

corrected the other. "I give a complete service."

He was a strange looking person, this tax authority. He wore a black overcoat with the collar turned up. On his head was black homburg hat. It was a little too large for his, almost touching his ears.

The man's face was a putty white. His eyes were partly hidden by dark glasses. His nose was flat and his mouth was small and tight.

He took out his cigarette case and offered it to the passenger.

"Smoke?" he queried.

"No, thanks," returned the passenger getting out a pipe. "I always smoke this kind."

They lit up, the tax authority using a long black holder for his cigarette.

"Must be a fascinating business, inventing taxes," observed the passenger.

"My own tax ideas," he answered, "are copyrighted in all countries for my protection. I will allow no government to use my tax ideas on a royalty basis. My terms are ten per cent. of whatever the gross revenue is from any of my copyrighted taxes."

"Amazing!" exclaimed the passenger. "You should get rich."

"No," said the tax authority, "taxes will keep me poor."

He went on, "Just the other day I got world copyright on the annual marriage license."

"The what?" asked the passenger.

"Annual marriage license," replied the tax authority.

"You can't be serious."

"No," he replied, "the tax authority. 'I never was more serious in my life. This is the tax plan of the ages. It will bring in billions of dollars and I will get ten cents out of every dollar."

"How would it work?"

"It would work great," was the reply. "Suppose the annual marriage license is five dollars. Suppose I lease it to the United States. There are 32,000,000 married couples. The gross revenue would be \$160,000,000 a year. Then there's Canada, Mexico and all Central and South America. Think, too, of the opportunities elsewhere. When you realize that I hold world copyright to the plan you must admit that the thing is colossal."

"Let me understand this plan right," said the passenger. "Would a couple cease to be married if they didn't pay the tax?"

"Of course," replied the tax authority. "They'd still be married but they'd owe the government five dollars, and governments know how to collect."

"It's incredible!" breathed the passenger in admiration. "You must have a great head."

"I have," conceded the tax authority.

The passenger filled his pipe again.

"Do you know," he said, "the only fly in the ointment is that no government would dare impose such a tax."

"Don't worry," said the tax authority. "The public, so far as taxation goes, is punch drunk. My own public opinion poll shows that."

"Maybe, you're right," said the passenger.

THE ship's siren blew for East Mountain and her four-wheeled brakes eased her up to the wharf.

A police officer in blue with gold braid and three came up the gang plank. He strode straight to the tax authority.

"I have here a warrant," he said, "for you last year's dog tax."

"What dog?" asked the tax inventor with a smirk.

Sure enough, Masterpiece, the wise dog had disappeared. As the discomfited policeman retired the tax inventor turned to the passenger.

He explained, "To make the most of my inventive genius I must not only devise new taxes, but also methods to fight them. In that way I shall collect from governments with one hand and from individuals with the other. My disappearing dog is just an experiment in defence tactics."

Fur Coats

Should Be Worn By Men As Well As The Gentler Sex

If we had any sense, and any real understanding of our country, fur coats of all kinds would be the normal winter wear in Canada, but because we cling tenaciously to notions which did not evolve here, fur coats are luxuries worn by well-to-do women, and rarely worn by men.

It is all very silly and un-Canadian. If we truly understand ourselves as a nation there would be no tax on fur coats, they would be produced in quantity, and we would all have them. But it is still the Canadian way to avoid facing the realities about our country, and to import our ideas from abroad. Peterborough Examiner.

Some species of cactus have green flowers.

Like Australians

Natives Of Borneo Delighted With Treatment Soldiers Gave Them

Santa Claus, in Borneo, wears a wide-brimmed Australian hat. When the Australians landed, the natives were astonished. Soon they were delighted. Here were white men treating them as equals—free citizens of Borneo.

These white men loved children. Every ragged urchin was their friend. The children loved it, and so did the parents.

An English rubber planter, who revisited an estate he managed before the war, said the natives in a village came to him almost weeping and said:

"Tuan, our hearts are sad because we have heard the Australians will soon be going home. They have given us of their own food and clothing. They have been kind to our children. We wish them to stay. Tuan, you know important people, you have influence with the Government. Could you not arrange for the Australians to stay with us?"

Half the native children in Borneo now greet you with "Hello George," writes Jack Fleming in the Melbourne Herald. Many proudly wear the 8th Division cap patch. They ride in jeeps, in ducks, and three-ton trucks. Units arrange sports for them, with sweets as prizes. The children cluster round Army cookhouses and every cook finds something to give them.

Parents, who cherish their children—and they have swarms of them—rejoice their gratitude by doing the troops' washing, bringing them gifts of fruit and eggs, and even the potent native wine. Often when a Digger leaves they give a farewell party for him.

For years there will be talking in the villages of the white men from Australia in battered slouch hats who were so generous and friendly.

Luckless Prisoners

Were Beaten By S.S. Guards Until They Fell To Death Over A Cliff

A Mauthausen concentration camp guard told the war crimes tribunal that he saw eight prisoners hurl themselves over a 125-foot quarry cliff while S.S. men laughed. The S.S. guards called this "playing paratrooper," he said.

The witness was Alois Hoellriegel, a 36-year-old Austrian barber. He said he watched from a guard tower in 1941 while two S.S. men herded the prisoners toward the cliff.

"They beat the prisoners, and I saw that they intended to throw them over the cliff," he said. "Because of the beatings the prisoners threw themselves off the cliff in desperation."

Greenland is a possession of Denmark.

A Matter Of Diet

Increase Weight And Height Of School Boys In Britain

A doctor has a plan to make Britain's boys bigger. He has found that elementary school lads are smaller than public school boys and is prescribing a better diet.

For three years Dr. E. H. M. Milligan, medical officer of health, has compared weights and heights at his local schools. His report is being studied by all education authorities providing free meals at council schools.

Here are some of the doctor's recorded comparisons:

Aged nine—Public school boys 11 pounds heavier and three inches taller than elementary school boys.

Aged 11—Public school boys 10 pounds heavier and four inches taller.

Aged 14—Public school boys 21 pounds more, four inches taller.

Shortage of foods of proteins and calories retarded some of the boys growth.

One gallon of gasoline, properly mixed with air, is equivalent to 83 pounds of dynamite.

1946 Tourist Season

Preparations Are Being Made To Welcome Many To The National

Tourist experts are already estimating the approximate number of visitors Canada may receive during 1946. The first full year of peace. Experienced observers at the recent Toronto Conference of the Canadian Association of Tourist and Publicity Bureaus predicted a twenty-million tourist influx this year. Special facilities are under way to welcome many of them to the national parks. Those who can do so are being urged to bring along their own camping equipment this year in case they find difficulty in securing accommodation in the national parks, especially at the height of the season. Special facilities are being provided for those visitors who are planning to spend their holidays under canvas or in automobile trailers.

From every portal of entry streams of tourists will "fan out" to their favorite haunts, dispersing as they move northwards into Canada's great hinterland of lakes and forests and rivers. Most of them will be seeking a spot where they may enjoy for a few days or a few weeks nature's fresh, unspoiled beauty, far from the roar of traffic and the sound of factory whistles.

A forecast of "things to come" in the realm of tourism may be gleaned from the interest that is being shown in this year's Banff Winter Carnival. The twenty-seventh of such winter events to be held at this popular resort in the Canadian Rockies. The carnival is an exhilarating affair of high quality held in a setting that is perhaps unique on this continent. Skiing, skating, curling, hockey, tobogganing, ski-joring and bobsledding are among the winter sports of this year's agenda. The Carnival which opened on December 26th, will be extended over a series of weeks, the final events of the winter season taking place on March 3rd with the crowning of the Carnival Queen.

Besides an invigorating program of fun and frolic on ice and snow, many important championships are being decided including speed skating, ice racing and bobsledding. Side attractions are much in evidence this year—swimming in the hot springs, dancing, dinner parties, snowshoeing, and amateur theatricals. The new spirit of a nation at peace after five years of grim struggle is being manifested throughout in quite a spontaneous manner. A happy and care-free atmosphere pervades a winter scene of unparalleled beauty. The mood of this year's winter visitors may be described thus: the war is over; a new era of peace has begun; let us welcome it in the true Canadian fashion.

Quality Guaranteed

CWAC JOB IS ESSENTIAL—Members of the Canadian Women's Army Corps are performing essential duties and their continued service is important during the period of demobilization and reorganization. It was emphasized at M.D. 12 Headquarters, Regina, Sask.

Because CWACs are not to be employed in the interim force, it does not follow that all personnel employed in the wartime army will be out of uniform by the end of March, 1946. Many members of the CWAC, employed on duties connected with the demobilization program will be required to serve for some months beyond that date, it was stated.

Conflicting reports as to the future of the Canadian Women's Army Corps have been a great deal of confusion. The policy for demobilization remains unchanged and personnel will continue to serve and be demobilized under existing regulations.

CWAC HOLD CHRISTMAS PARTY FOR LONDON CHILDREN

Members of 43 Coy, CWAC (Overseas) were hosts to nearly 200 London and area youngsters at a Christmas party, in December, at their barracks near Lancaster Gate. No effort or expense has been spared by members of the Company to make this party a success for their youthful guests. For the past several weeks the girls have spent their spare time during the evening making presents and decorations. Preparations have been in the hands of three committees. Those from the western provinces included: Sgt. E. M. Coscar, Winnipeg; Cpl. B. Robertson, Hamilton, Ont.; Cpl. M. G. Smith, Saskatoon, Sask.; Sgt. D. M. Burton, Saskatoon, Sask.; Pte. E. A. Carnell, Waterton Park, Alta.; L-Cpl. J. M. Whitney, Valjean, Sask.; Sgt. J. B. Scott, Calgary, Alta.

Fitted Apron

It is a clean, stylish, attractive one that will be more to help you get your trouble than anything you've ever had.

Its action is so powerfully penetrating that the itching is quickly stopped, and in a short time you are rid of that bothersome, very itching. The same is true of itchy skin, itchy skin troubles.

You can obtain Moore's Eczema-Ointment in the original bottle at any modern drug store. It is in the original bottle at any modern drug store. It is in the original bottle at any modern drug store.

CWAC OFFERED ROLE IN PLAY

An Alberta member of the Canadian Women's Army Corps now serving overseas may appear on the London stage in one of next season's plays. She is Pte. Adelle Chelakuk, daughter of Mr. and Mrs. Sam Chelakuk of Shepard, Alta. The pretty, dark haired private has been interviewed by Fifth Shepherd, well known London producer, for a part in one of his plays for the coming season. She enlisted in the army early in the war, and after serving in various parts of the Dominion went overseas about three months ago. She is reported to have attended Western Canada High School, where she took part in dramatics. A member of a patriotic family, she has four brothers and a sister in the armed forces.

WEDDING BELLS

A military wedding took place in St. George's Chapel, No. 12 District Depot, Regina, Sask., on January 2, 1946, when Pte. Margaret Lucy Keeble, CWAC of Victoria, B.C., became the bride of Tpr. Alexander Balna, Melville, Sask. Capt. F. M. Joy, army chaplain, officiated. Bridal attendants were Sgt. Doreen Washington and Tpr. Dean Armstrong.

QUOTA CLUB ENTERTAIN CWAC

A number of CWAC members were guests at the Quota Club Christmas party held in the Drake Hotel, Regina, Sask. Miniature Christmas trees, tall tapers, Santa Claus candles and holly lent a festive air to the table centered by a large tree around which was piled gifts for all. Acting as Santa Claus, Mrs. E. Burch distributed a gift to each one present. In charge of arrangements were Mrs. I. Kirkbride, Mrs. Burch, Mrs. D. Wallis and Miss Marjorie Lawson.

THE MAGNETIC POLE

The magnetic pole which is on Canadian territory has once again changed its position. Observations numbering thirty thousand taken earlier this year by the Royal Air Force pilots who flew across the geographical North Pole, have shown that the magnetic pole now lies three hundred miles to the north-northwest of its accepted position in the Boothia peninsula.—Exchange.

WANT CORRECT TIME

During the war 27,000 public clocks throughout the country were destroyed or damaged by air raids. Britain's eight horological societies are now urging that it should be illegal for any public body to exhibit a clock which is not accurate by Greenwich time.

Do you suffer from MONTHLY NERVOUS TENSION with its work, tired feelings?

If functional periodic disturbances make you feel nervous, tired, restless—at such times you are not alone. Dr. Paulsen's Compound to relieve such symptoms. Fast relief, and more readily accessible than the most effective medicines for this purpose. Follow clear directions. Buy today!

RATION BOOK TOTALS JUMP

Population increase of 40,969 persons is recorded by ration book statistics between December 31st, 1944, and December 31st, 1945, states C. H. McKee, regional superintendent of rationing. The ration territory includes all Alberta and the Peace River Block of northern BC.

At the end of 1944 there were 795,923 ration book holders in the territory. The number increased to 835,892 at the end of 1945. This figure includes discharged service personnel who claim ration books at the rate of about 2,000 a month.

Reports submitted to the regional superintendent include ration books issued to new babies, to British war wives, and other new residents who did not previously possess ration books. The net figure accounts for ration books of deceased persons, and many American families returning to the United States. During the war ration books were returned to ration offices on enlistment.

Area administered from Edmonton covers the Peace River Block. In 1944 there were 416,848 ration books issued in the area while in 1945, 437,988 were given out. Calgary office issued 272,073 ration books in 1945 and 255,911 in 1944. Lethbridge issued 126,881 ration books in 1945 and 129,164 in 1944.

Rev. E. V. Steele, who spent four years in a German concentration camp, was speaker at Gospel Mission services at Brooks on Tuesday and Wednesday of this week. Rev. and Mrs. Steele were on their way to Africa to act as missionaries when their ship, the Zam Zam, was torpedoed by a German submarine.

Local and General Items

In the world today a new train of thought is long overdue.

No deadlock can be fully broken till somebody takes full blame.

For a brave new world we need a lot of brave new individuals.

Judge J. W. McDonald, of Calgary, was a business visitor to Blaimore on Friday last.

It's when we're unwilling to change ourselves that we think the other fellow is unchangeable.

John Camino, Bellevue miner, sustained a broken leg while at work on Monday of last week.

One fifty-foot length of garden hose contains enough rubber to make one pneumatic life-saving raft.

A lady was seen on Blaimore's main street on Thursday wearing a hat larger than a postage stamp.

Victor Law, recently arrived from service overseas, reached Crossfield from Montreal with his family on Friday last.

A forest area burned over once only grows again, but a double burning destroys all the seeds, making replanting necessary.

Epitaph: Here lies another sap who worked like fury to get money; became too stingy to use it, and left it all for others to spend.

Since Castle Mountain, near Banff, has been renamed Eisenhower, why not find a name for the new coal mountain near Greenhill, Blaimore?

Barmen are being weeded out in Chicago because customers pay more attention to them than to drinks. The bibles ring, but the cash registers don't.

Dr. W. H. Swift, chief superintendent of schools in Alberta, has been appointed to succeed Dr. G. Fred McNally as deputy minister of education in Alberta.

Printers of the Winnipeg Free Press and the Tribune, on a work stoppage for two months in a dispute over arbitration, will not be paid unemployment insurance benefit.

The 7,970-ton steamship Lady Nelson completed her 60th trans-Atlantic crossing as a hospital ship, on January 15th, docking at Halifax during a snow flurry with 449 sick and wounded Canadian overseas veterans.

Hon. Solon E. Low, national leader of the Social Credit party, on Friday last met with provincial party members and discussed plans for a national Social Credit convention to be held at Winnipeg or Quebec city in April.

The engagement is announced of Myrtle Emma, youngest daughter of Mr. Harold Easterbrook, of New Westminster, BC, and the late Mrs. Easterbrook, to Norman Walter Coatham, youngest son of Mr. and Mrs. C. B. Coatham, of Port Hammond, BC.

At the annual meeting of members of the Macleod branch of the Canadian Legion, BESL, Major Walter Brookes was elected president, Jack Huntley first vice-president and W. R. Toogood second vice-president. Rev. R. N. Holmes was elected chaplain, and H. T. Hall, well member of the executive.

Among the 19,000 troops returning via Halifax and New York the early part of the week were the following for this district: Sgt. J. McKay, Tpr. H. W. Poulsen, Cowley, Rdr. H. F. Eyesacker, Pte. C. M. Roughhead, A/Capt. A. J. Garrett, Tpr. J. J. Sikora and Pte. W. Ferby, Coleman; L/Sgt. R. E. Cole, Corp. A. L. Aveledo and Tpr. J. Huch, Bellevue; Pte. B. Potruzik, Frank, and A/Sgt. Renie J. Steiner and Corp. Ian M. Walker, Blaimore. Private Ferby, is a stretcher case.

A few days ago two butterflies were on display in a window at Clareholm.

A new daughter was born to Mr. and Mrs. Paul Faminow, of Landbeck, on January 4th.

A cover-up theme dominates in the beach dress for 1946 in New York. What a blessing!

Mrs. Idris Evans is away on a holiday visit with relatives and friends in Los Angeles, California.

Many a man talks about the brotherhood of man who has never been much of a brother to his own kid brother.

An "invitation" party was held at the local court house on Thursday forenoon, in which membership fees ranged from five to fifty-five bucks.

A 57-year-old former coal miner has been appointed to the post of governor of Newfoundland. He is Gordon MacDonald, of Lancashire, England.

A new form of foreign delegation is heading for the American continent—a delegation of brides. A peace job for about 45,000 of 'em is being provided in the United States, and a similar percentage in Canada.

R. W. Morgan, of Pincher Creek, has purchased the property formerly owned by F. T. Edwards, which includes the C. C. Colman drug store, Hub Cigar Store and the B-A service station.

Death came suddenly to Peter Kevnuk, known mostly as Two-Gun Pete, while travelling with friends to the farm of Charlie Joyce, south of Pincher Creek, on the night of January 3rd.

Sentenced to be shot by a Canadian military court for atrocities committed against Canadian prisoners of war, a commutation has been made to life imprisonment for German Major-General Kurt Meyer.

The remains of the late Frederick George Bowen were laid to rest in the Union cemetery on Saturday afternoon, "Rev. J. McKelvey officiating. Two brothers of deceased from New Westminster, BC, were in attendance.

The Christmas Seal provincial total is now \$75,000, a wonderful increase of over \$25,000 ahead of the same period last year, but leaves \$15,000 still to go, keeping books open a few weeks longer to obtain the \$90,000 objective, every cent of which is needed.

A report from Innisfail says that just before Christmas one of Mrs. Hunt's New Hampshire pullets did a phenomenal job on one of its eggs by phoning a question mark and the initials A T on the shell. Mrs. Hunt's daughter has the initial A and the daughter's husband the initial T.

Salary disputes among teachers in four different parts of the province are awaiting further action. An arbitration board is to meet in Calgary on February 8th to deal with a dispute between 35 teachers and the Drumheller board. The board consists of J. V. H. Milvain, well known Calgary lawyer, representing the trustees; Judge L. H. Stack, chairman, and J. W. Barnett, teacher representative. Mr. Barnett is also acting as bargaining agent for the teachers in salary disputes with Pincher Creek, Cardston and Olds public school boards.

Daughter (on housework): "Dad, what's the most effective agency for the redistribution of money?"

Dad (absently): "Wives."

Husband (of the ingenious type): "I've invented a new type of woman's handbag, dear."

Wife (skeptically): "What's new about it?"

Hubby: "The zipper's at the bottom. Isn't that where everything usually is when you want it?"

ALBERTA DIVISION, RED CROSS SOCIETY

Red Cross message forms: Our national office advises that the International Committee of the Red Cross in Geneva are now in a position to transmit messages to civilian residents in the entire territory of Austria, Albania and Hungary. Please do not accept messages for residents of other countries until so advised.

The messages must be written in block letters, if possible, and on the regular message forms which will be provided to the branches on request to the division. These forms should be returned to the division for transmission to national office.

Letters to prisoners of war: We have received many enquiries in regard to sending letters and parcels to enemy prisoners of war. Letters may be sent through the regular postal channels, postage free, but it is advisable to have the envelopes typed or printed with full prisoner of war address, together with service number and nationality. In regard to parcels, application should be made to the Department of National Defence, Ottawa, for a permit to send the same.

Broadcasts to Czechoslovakia: Our national office advises that more than 87 per cent of the messages sent by them through the Canadian Broadcasting Corporation to Czechoslovakia have been received and a considerable percentage of the addressees located since the close of the war, as reported by the Canadian Broadcasting Corporation. "It was a very valuable service and was highly appreciated by everyone concerned," said Dr. F. Pavisek, minister of the Czechoslovakia Republic in Ottawa. It enabled friends and relatives in Canada to get messages through to their homeland. A similar broadcast service was maintained by the Red Cross to the Netherlands—D. H. Tomlinson, commissioner, Alberta Division, Canadian Red Cross Society.

CONVICTION UNDER REINSTATEMENT ACT
The first prosecution in Canada under the reinstatement in civil employment act came before Magistrate G. Potter in a Winnipeg court on December 27th, when the Western Auto and Truck Body Works Ltd., Winnipeg, was charged with failure to reinstate Stephen Krawchuk in his former employment at the termination of his service in His Majesty's forces. The defendant was convicted and fined \$25 and costs, and in addition was ordered to pay Krawchuk the equivalent of twelve weeks' wages amounting to \$270. C. Rhodes Smith, KC, appeared for the crown. Commenting upon the conviction,

COME UP AND SEE US SOME TIME

We have been sending out this invitation from Alberta for a long time now, and many of our friends south of the border have accepted our invitation—in spite of the uncomfortable, and sometimes hasardous condition of the roads we invite them to motor over. Thousands more would rather motor in comfort somewhere, else than tackle our roads, no matter what scenery and hospitality we have to offer. And who can blame them?

We need good roads. We want good roads. Besides bringing millions of dollars in tourist trade to Alberta, they will encourage the free flow of business within the province for the benefit of all.

Do your part to promote good roads. Talk about them. Ask your provincial member for action on the \$120,000,000 road-building program now under consideration by the government. Get behind the Alberta Motor Association in its campaign for a modern road system, by becoming a member.

A.M.A. membership costs only \$10 a year, and it offers a host of services of value to every car owner. There are offices in Calgary, Edmonton and Lethbridge that will send you full information promptly on request.

Arthur MacNamara, deputy minister of labor, pointed out that this follows from the first prosecution found necessary where an employer had failed to reinstate an ex-soldier of the armed services in his former employment.

The fact that this is the first prosecution under this act, the deputy minister of labor said, speaks volumes for the admirable manner in which Canadian employers have complied with the law. Tens of thousands of men and women have been given back their old jobs under the conditions set forth in the statute, and when at this late date one can say that only a single prosecution has been found necessary, it is needless to say more to indicate how well employers have observed both the spirit and the letter of the act.
